# Morton Marine Umbrellas

This wonderfully versatile umbrella is our flagship marine umbrella, ideal for luxury motor yachts and is a firm favorite of our clientele.

A brushed aluminum mast and boom, stainless steel hardware and exquisite ease of use make this umbrella such a fine piece of equipment. The canopy is able to manoeuvre through all three axes, with height adjustment, up to 90° tilting feature and 360° rotation. When the canopy closes, it retracts to the side, thus leaving the previously shaded area completely clear of obstruction. A removable hand crank is used to open and close the canopy. High grade solution dyed acrylic fabrics are used for the covers with a choice of over 30 colors.

Sizes and shapes:

Square: 8ft 6"

Round: 8ft 2"; 10ft; 10ft 10"

Rectangular: 8ft x 10ft

This unique retractable cantilever umbrella has a clever “easy up” action and can be opened with one hand.

With a sturdy 4" square mast made of powder coated aluminum with stainless steel hardware, it is an ideal shade for a luxury motor yacht. A stainless steel air spring assists the opening and closing of the canopy.

Up to four canopies may be used with one mast, which offers the potential for up to 18ft x 18ft coverage.

High grade solution dyed acrylic fabrics are used for the covers with a choice of 20 colors.

Sizes and shapes:

Octagonal: 11ft

Square: 8ft; 10ft

Multiple canopy options are available.

The extraordinary functionality of this umbrella offers a sophisticated styling typical of a Morton umbrella. Beauty and high durability distinguishes The Cannes model for elegant motor yachts.

The oval mast and boom is made of brush aluminum, with a cast aluminum elbow joint for strength. This reflects the nautical flair of this umbrella. The mast can be rotated through 360°. The canopy is vented, which facilitates air flow and increases stability. A hand crank is used to open and close the canopy.

High grade European solution dyed acrylics are used for the covers, with a choice of around 12 colors.

Sizes and shapes:

Octagonal: 10ft; 11ft; 13ft

Square: 8ft; 10ft

This spectacular marine grade stainless steel umbrella is the prince of the luxury motor yachting world. The Antibes models natural habitat is the French and Italian Rivièras.

High strength and ultra-chic comes courtesy of a polished stainless steel mast and a multi vented canopy to maximise air flow and provide a uniquely stunning aesthetic. A double canopy version is also available.

A manual winch is used to open and close the canopy. High grade solution dyed acrylics or Soltis® fabrics are used for the covers with a choice of around 20 colors.

Sizes and shapes:

Octagonal: 8ft

Square: 11ft

Rectangular: 10ft x 13ft

The Zero is a dramatic minimalist approach to shade design. It maximises overhead shade with a “zero” vertical canopy profile, which creates an ultra modern vista.

This umbrella is as contemporary as it gets, with an armor-wall, highly polished aluminum mast and ribs. The umbrella is finished with stainless steel hardware and pulley system for easy operation.

Sunbrella fabrics are used for the covers, with a wide choice of colors.

Sizes and shapes:

Square: 7ft 6"; 8ft 6"; 9ft 6"

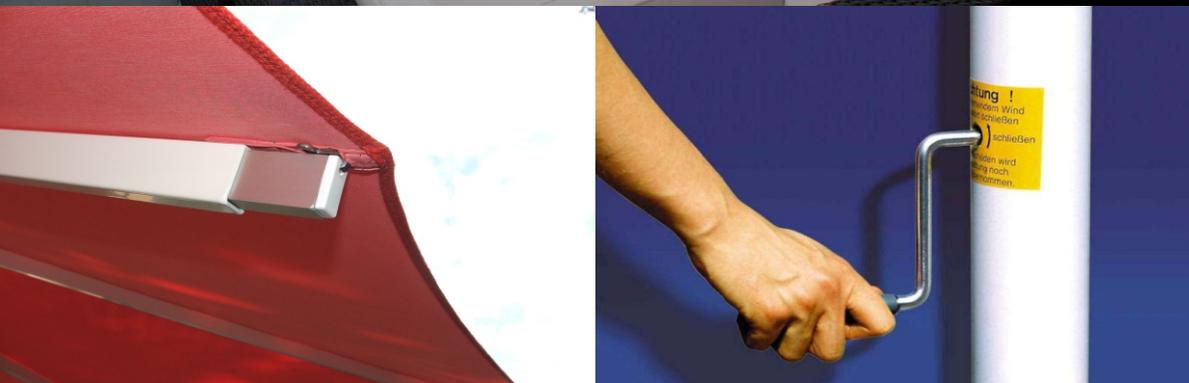

Octagonal: 8ft; 10ft; 12ft

This heavy duty and imposing umbrella is the ideal structure when extensive coverage is a pre-requisite.

The mast and frame is made of aluminum with either a white powder coated finish or anodized silver grey. The spokes are reinforced for extra strength. All the fixings and hardware are made from 316 marine grade stainless steel. A removable hand crank is used to open and close the canopy.

High grade European solution dyed acrylics are used for the cover with a choice of over 30 colors.

Sizes and shapes:

Shapes: Square, Rectangular, Octagonal, Round and Triangular.

Sizes: Many options, please ask for further details.

9 schattello inox

The Olympia is a unique high strength umbrella with a stunning Ferrari PVC canopy, which offers a singular aesthetic.

The impressive 3" diameter mast and the frame are made of stainless steel with solid stainless steel support struts. A removable pulley system is used to open and close the canopy.

The membrane is made from Ferrari 502 PVC fabric, which is heat reflective, UV treated with a choice of around 30 colors.

Sizes and shapes:

Square: 9ft; 13ft

The much celebrated Cotswold umbrella is crafted from Eucalyptus wood. Designed for long life with stainless steel hardware, this model adds a classical look to your deck.

The high grade components and build quality means easy maintenance and repairs ensuring maximum investment protection. Poles are laminated and made from full lengths of eucalyptus to create a one piece pole that is incredibly sturdy. The wood has a density of 900Kg per cubic metre, one and half times as dense as teak. Hubs, also laminated, are cut and turned by hand to ensure the perfect finish.

High grade European solution dyed acrylics are used for the cover with a choice of around 20 colors.
