# Morton Marine Parasols

## **introduction**

We are a family business with a rare work ethic matched only by the top line quality of our product portfolio and we expect to work with our clients closely. In this brochure, you will view the finest marine parasols available for luxury motor yachts and super yachts. We know that the quality of our parasols is peerless.

## **quality**

We are serious about quality. Our parasols are carefully selected from the worlds leading designer and artisan manufacturers, specifically for use in marine environments.

## **price and service**

We understand that you are investing in a high quality product. We do not skimp or cut corners in any way, thus ensuring that your purchasing experience exceeds expectation.

# Morton Marine Parasols

**This wonderfully versatile model is our flagship marine parasol, ideal for luxury motor yachts and is a firm favourite of our clientele.**

A brushed aluminium mast and boom, stainless steel hardware and exquisite ease of use make this parasol such a fine piece of equipment. The canopy is able to manoeuvre through all three axes, with height adjustment, a tilt feature up to 90° and 360° rotation. When the canopy closes, it retracts to the side, thus leaving the previously shaded area completely clear of obstruction. A removable hand crank is used to open and close the canopy. High grade solution dyed acrylic fabrics are used for the covers with a choice of over 30 colours. The mast diameter is 55mm (2.165").

Sizes and shapes:

Square: 2.6m

Round: 2.5m; 3.0m; 3.3m

Rectangular: 2.1m x 3.0m

**This unique retractable cantilever parasol has a clever “easy up” action and may be opened with one hand.**

With a sturdy 100mm (4") square mast made of powder coated aluminium with stainless steel hardware, it is an ideal shade for a luxury motor yacht. A stainless steel air spring assists the opening and closing of the canopy. Optional heating along with a remote controlled LED light is available. Up to four canopies may be used with the one mast, which offers the potential for up to 6m x 6m coverage. High grade solution dyed acrylic fabrics are used for the covers with a choice of 20 colours.

Sizes and shapes:

Octagonal: 3.5m

Square: 2.5m; 3.0m

Multiple canopy options are available.

**This spectacular marine grade stainless steel parasol is the prince of the luxury motor yachting world. The Antibes models natural habitat is the French and Italian Rivas.**

High strength and ultra-chic comes courtesy of a polished stainless steel mast and a multi vented canopy to maximise air flow and provide a uniquely stunning aesthetic. A double canopy version is also available. A manual winch is used to open and close the canopy. High grade solution dyed acrylics or Soltis® fabrics are used for the covers with a choice of around 20 colours. The mast diameter is 60mm (2.36").

**THIS MODEL IS ALSO AVAILABLE IN A DOUBLE CANOPY VERSION**

Sizes and shapes:

Octagonal: 3m; 3.5m; 4m; 4.5m

Square: 2.5m; 3m; 3.25m; 3.5m; 4m

Rectangular: 2m x 3m; 2.5m x 3.5m;  
3m x 4m; 3.5m x 4.5m

7 antibes

**Artisan design and build takes small parasols to a new level with a singular aesthetic.**

The Sorrento has a unique multi air vent canopy. This not only greatly increases stability in windy conditions, but affords a quite stunning aesthetic that most other parasols cannot rival. These parasols are hand built, using the finest materials and workmanship. The mast and frame are made of anodized aluminium. European acrylics are used for the covers, with a choice of around 20 colours. The mast diameter is 56mm.

**Sizes and shapes:**

Square: 3m; 3.5m; 4m; 4.5m; 5m

Rectangular: 2m x 3m; 2.5m x 3.5m; 3m x 4m, 3.5m x 4.5m; 4m x 5m

Octagonal: 3m; 3.5m; 4m; 4,5m

**This model is the ideal SMALL aluminium parasol. Simple and stylish, where high mobility and quick set up times are a prerequisite and light enough to remove for stowing.**

A glass filled hub ensures smooth operation and the longevity you expect from investing in high end parasols. A hand crank or rope and pulley is used to open and close the canopy. European acrylics are used for the membranes, with a choice of around 20 colours. The mast diameter is 55mm.

#### Sizes and shapes:

Octagonal: 2m; 2.5m; 3m; 3.5m; 4m; 4.5m; 5m

Rectangular: 1.5m x 2.5m; 2m x 3m; 2.5m x 3m; 3m x 3.5m;  
3m x 4m

Square: 1.5m; 2m; 2.5m; 3m; 3.5m; 4m

**This marvellous model is crafted from natural Bamboo, which is the ideal construction material for this style of parasol. Designed for long life with 304 stainless steel hardware, this model adds a classical look to your deck.**

The high grade components and build quality ensures easy maintenance and repairs ensuring maximum investment protection. The mast is laminated with full lengths of bamboo to create a beautifully smooth, one piece mast that is incredibly sturdy. Hubs, also laminated, are cut and turned by hand and an elegant finial ensures the perfect finish. A double pulley system is used to open and close the canopy. The Trieste also boasts impressive "green" credentials, with high CO<sub>2</sub> absorption and bamboo sourced from sustainable forests. Thick polyester fabrics are used for the cover, with optional solution dyed acrylics. The mast diameters range from 38mm to 58mm (1.5" to 2.28").

#### Sizes and shapes:

Octagonal: 2.5m; 3.0m; 3.5m; 4.0m

Square: 2.1m; 2.6m; 3.0m; 3.4m

Rectangular: 2.0m x 3.0m; 2.5m x 3.5m

**This model is a unique hybrid of a centre pole parasol and a side post. Where neither of the normal options will do, this clever design offers you the best of both worlds.**

The pole is offset so allowing a clear space for larger tables and yet the benefit of having the canopy supported from underneath ensures higher strength and stability. A wide range of sizes and shapes are available making this model an attractive shade solution. An aluminium mast and frame, corrosion-resistant hardware and sturdy canopy adds up to a durable and reliable parasol. A telescopic system allows table clearance when closing the canopy. The canopy is opened and closed using a manual lever handle system. European acrylics are used for the covers, with a choice of around 20 colours. The mast diameter ranges from 55mm, 76mm or 110mm.

Sizes and shapes:

Octagonal: 3m; 3.6m; 4.3m; 5m; 6m

Square: 3m; 4m; 5m; 6m

Rectangular: 2m x 2.7m; 3m x 4m; 3.5m x 4.5m; 4m x 5m;  
4.5m x 6m; 5m x 6.5m

**This heavy duty and imposing parasol is the ideal structure when extensive coverage is a pre-requisite.**

The mast and frame is made of aluminium with either a white powder coated finish or anodized silver grey. The spokes are reinforced for extra strength. All the fixings and hardware are made from 316 marine grade stainless steel. A removable hand crank is used to open and close the canopy. High grade European solution dyed acrylics are used for the covers with a choice of over 30 colours. The mast diameter is 76mm (3").

Sizes and shapes:

Shapes: Square, Rectangular, Octagonal, Round and Triangular.

Sizes: Many options, please ask for further details.

**The Zero is a dramatic minimalist approach to shade design. It maximises overhead shade with a “zero” vertical canopy profile, which creates an ultra modern vista.**

This parasol is as contemporary as it gets, with an armour-wall, highly polished aluminium mast and ribs. The umbrella is finished with stainless steel hardware. An auto lock pulley system opens and closes the canopy. Sunbrella fabrics are used for the covers, with a wide choice of colours. The mast diameter is 38mm (1.5”).

Sizes and shapes:

Square: 2.3m; 2.6m; 2.9m

Octagonal: 2.45m; 3.0m; 3.65m
